## Project Detail

### Cloth Factory

The goal of this online shopping systems will be able to search the database to find the cloth they want, check & place the order to buy the product. This app also provide all information about cloth like cloth category name, material type, cost etc..

### Electricity Billing System

The objective of our electricity billing system project is to modernize and streamline the process of billing customers for their electricity usage. By implementing this system, we aim to automate the calculation of electricity consumption, reduce manual errors, and enhance the overall efficiency of our billing operations..
